What is Telerik® UI for Xamarin?

Chart (Xamarin.Forms and Wrappers)

```
public static Xamarin.Forms.Page GetMainPage()
{
    RadCartesianChart chart = new RadCartesianChart {
        VerticalAxis = new NumericalAxis(),
        HorizontalAxis = new CategoricalAxis()
    };

    Random r = new Random();
    List<Data> items = new List<Data>();
    for (int i = 0; i < 5; i++)
        items.Add(new Data { Category = i, Value = r.Next(0, 100) });

    var series = new BarSeries();
    series.ItemsSource = items;
    series.ValueBinding = Binding.Default;
    series.CategoryBinding = Binding.Default;
    chart.Series.Add(series);

    return new ContentPage { Content = chart };
}
```

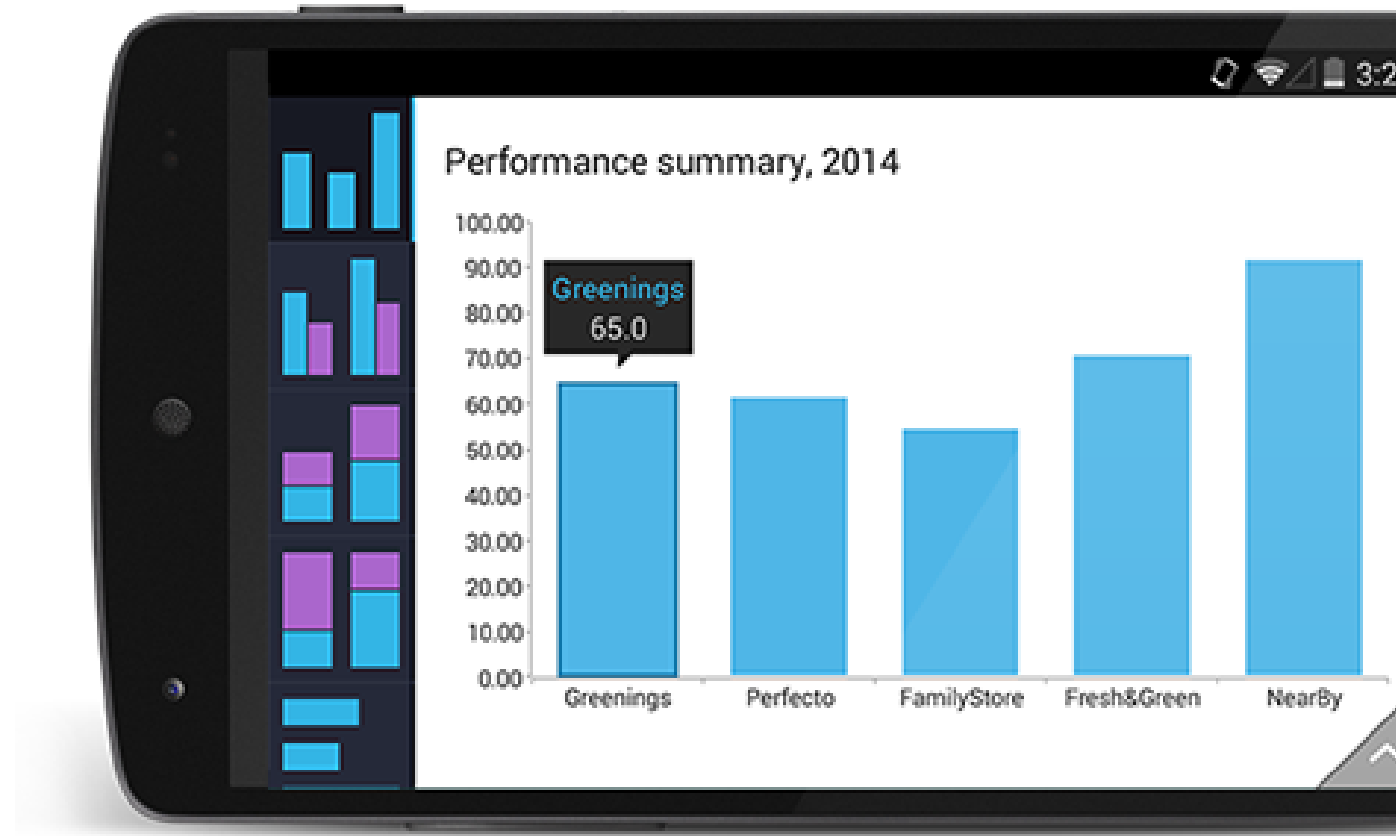

Supported Series

- Categorical
 - Bar
 - Line
 - Spline
 - Area
 - SplineArea
- Scatter
- Pie Chart

Also Supports...

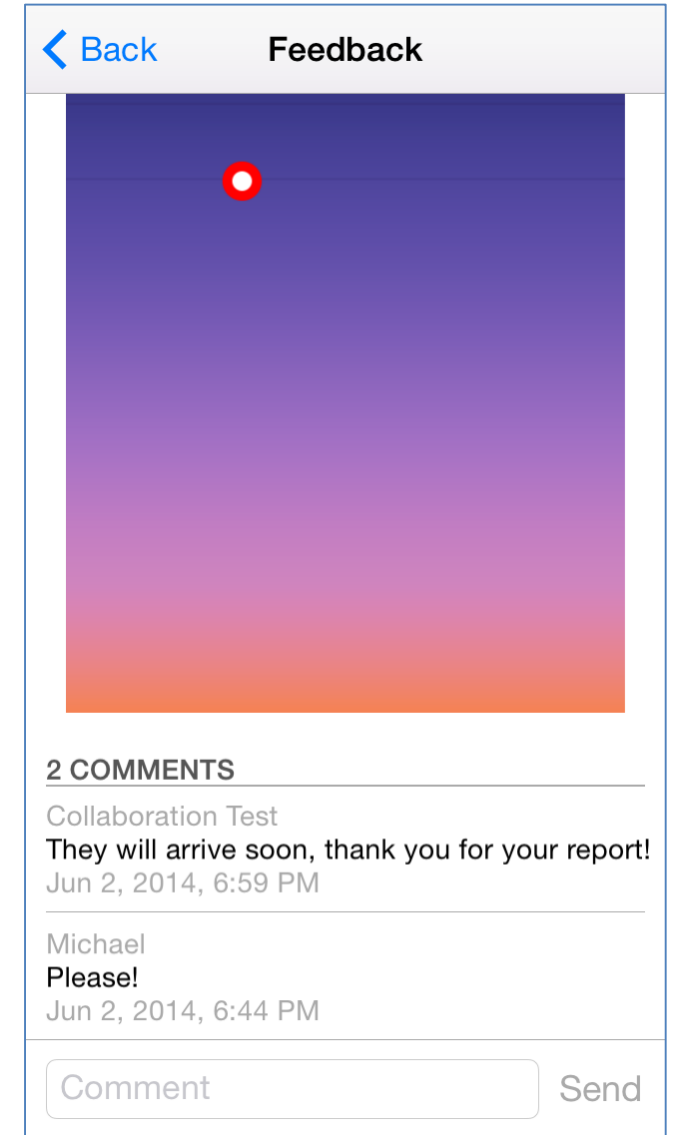

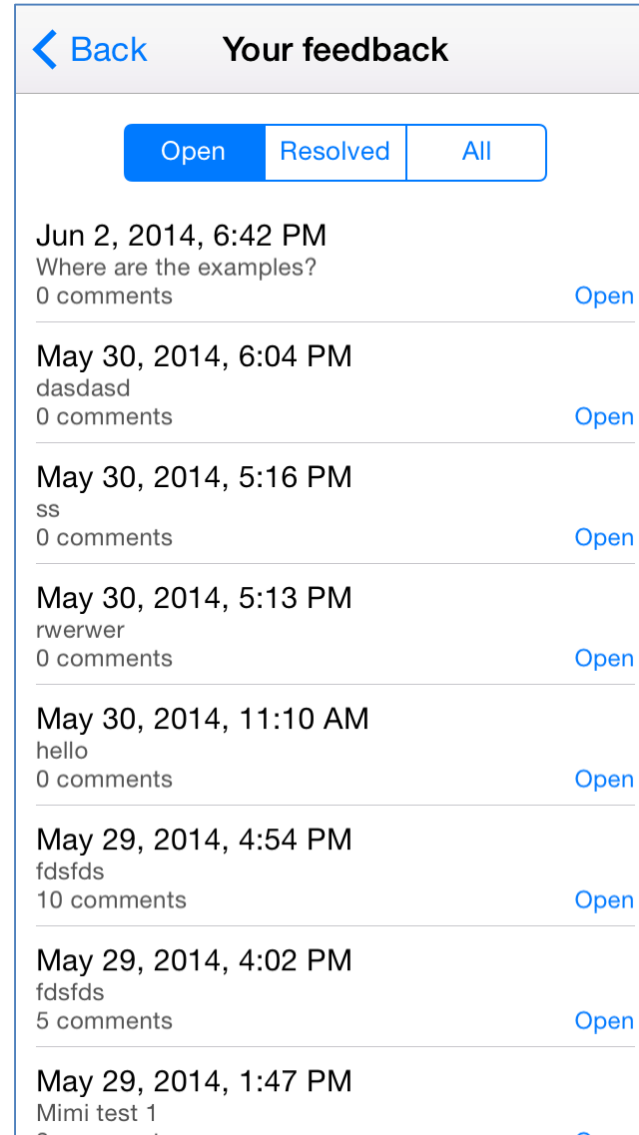

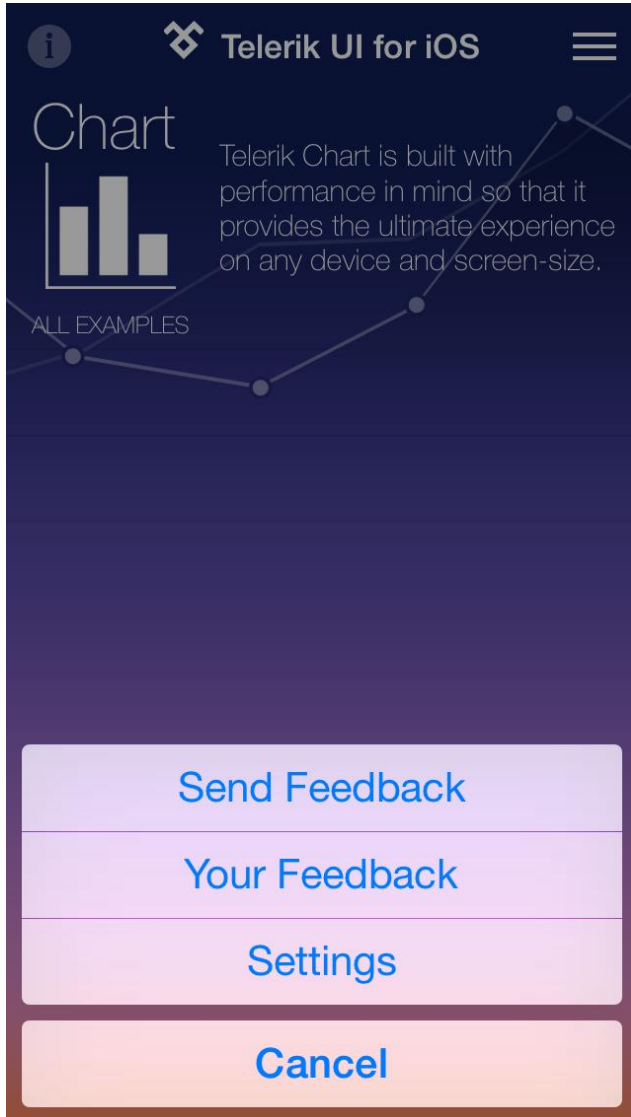

- Selection
- Interactivity
- Annotations

Calendar (Wrappers)
