

WITHOUT a CUSTOM FILTER - Rendered Properly

```
columns.Bound(p =>  
p.SubProgramObject).ClientTemplate("#=sanitizeNulls(SubProgramObject?.SubProgram)#  
").Sortable(true).Width(160).Filterable(true).Title("Sub Program");
```

## WITH A CUSTOM FILTER

```
columns.Bound(p =>
p.SubProgramObject.SubProgram).ClientTemplate("#=sanitizeNulls(SubProgramObject?.S
ubProgram)#").Sortable(true).Width(160).Title("Sub Program").Filterable(filterable =>
filterable

.UI("subProgramFilter").Extra(false)

.Operators(operators => operators

.ForString(str => str.Clear()

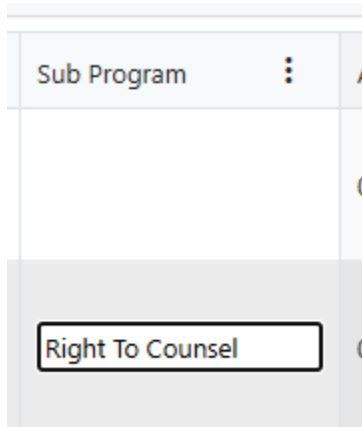

.IsEqualTo("Is equal to")

.IsNotEqualTo("Is not equal to")

.IsNullOrEmpty("Is null")

.IsNotNullOrEmpty("Is not null")

));
```

The screenshot shows a table with a header row and a data row. The header row has a column titled "Sub Program" with a dropdown arrow icon. The data row contains the text "Right To Counsel".

Sub Program
Right To Counsel
